had which alleged christians had had upon their non-confessing brothers. He discussed the effect of worldliness in He discussed the effect of worldliness in principles. He dut not believe it a ruined would—a missocialis wreck from which finally trying to save here and there an individual. It is a grand world prepared for us. The worldliness which he opposed was the worldliness as so clearly defined by St. John. To redeem it of assaut in accomplishing (loaf a purpose, a man must always on a solid rock he can had be of the worth surfax. Its told the must shared on a solid rock, he can must be of the earth-aurthy. He told the shiry of the wate of the southern governor who made her little girl's dresses to set the fashion, and declared that's what the christian should seek to do set the fashion in religious living. The speaker referred to theretianity in the husiness murfil A man should be ordained of field in every saling he may choose. The spirit of Christ is as necessary in hanking, in clarking, in working in all business occupations as it is in practiling, and in the great millenium every deed will be an act unto God. The evangelist told the story of Hiram Guif, a showmaker by the grace of God more than we do preachers by the grace of God more than we do preachers by the grace of God.

Business and Religion.

When you hear a man say that you can't mix business and religion. You can't mix business and religion, you can be sure that he hasn't any religion to mix. It's an absurd farce. Too many of us pay the preacher to, he religious during the week. Six days are given to business. On the seventh we get up late; read the contents of a Sunday paper; go to church; hear a heathen hymn sung by a godiese chour in an unknown tongue; listes to a sermon about astronomy or instea to a sermon about astronomy or the world's fair or Ningara Falls. Mon-day it's different. The debtor is taken by the throat, and you say. "Pay me that which thou owest." Who wants the religion of the Section on the Mount? God wants us to live in a spirit of hore, You can't get along with-

The service of the commonwealth should be preached to the church. The apositor believes in politica. The spirit of Christ should permeate the great problems of the day. Every political question is a moral question. There is no question that down to the root cannot be settled by the application of the be nettied by the application of the spirit of inve-tue tard, silver, temperance and all the rest. God wants you to go in the primaries and caucus and be a eitness to Christ. We need men work ing for the common good in the spirit of John the displiet and the spestles. God isn't boaring for propie who can be holy when they have in glass houses, he isn't holding for people also can go into a corner and pray.

Religion and the Poor. The sustenance of the poor is another thing that belongs to the church and to humanity. It is the test of christianity—'inasmuch he je did it unto the least of these, my brothres the same ye bare done also onto me. A man who is not holding every cent of his property as a steward, and used it for Got, is not a christian no matter what his pretentions. There is would enough in one church in this

city to wipe out all the poverty existing in the city, if the numbers had the right spirit. That's what it means to be a christian. The church of Jesus Christ. is responsible for all the poverty in the

spirit of God should preach unto the

church; that is concerning the salvation of fallen men. The Lord have mercy on people who are revived only at the times of cerival. God pity those who go through the forms of religious worship, whose religion is the religion of the scribes and Pharisees. In the ington name of God wake up, and hear what \$1,000. the spirit of Christ would say unto of Jesus Christ. You are touching elbows with persons who have no hope of God; you are sleeping under the same roof with them and looking into their

faces. For God's sake, come thou into the eafety of Christ. Let us pray," and the evangelist closed with a prayer for grace, which was broken by the amens of persons in the audience. The congrutation sang "A Charge to Keep I flare," after which Mr. Mills

pronounced the benediction and dismissed the meeting.
At 2.50 o'clock this afternoon, there will be a somen's prayer meeting in the hall. All a clock service will be held also. The doors will be open for the evening service at 7:15, and the preach-ing will begin at 7:45.

HOME FOR AGED WOMEN. I Nashua, N. H. With the consent and urgent request of the matron and one vice-president. I will give the testimony of one of our inmates, Mrs. Eliza Fuller.

She was quite ill with canker in her mouth, throat and chest, her complaint at every meal being "I cannot swallow." She read in the Nashua papers of so many wonderful cures performed by Dr. Groene's Nervura blood and nerve remedy, that she was induced to try it. She procured a bottle and the medicine cured her.

Another of our inmates was cured by Dr. Greene's medicine, and we all bless it for what it has done and have perfect confidence in the remedy for nervous

M. E. SEITH.

There is certainly a wonderful confidence felt by people in Dr. Greene's Nervura blood and nerve remedy and its truly remarkable power to cure disease.

There have recently come within our knowledge facts like the above which prove the great and wide spread confidence in this remedy both among public and private institutions. In the first place doctors prescribe and recommend it as it is the discovery and prescription of an eminent physician. If his, together with the fact of its wonderful cures, has led many dispensaries, hospitals and inled many dispensaries, hospitals and in-stitutions to adopt the remedy as a standard medicine.

Now we learn that various foreign

missions in India, China, etc., are having the remedy sent them as part of their necessary requirements in case of

Of course all these facts give the peo Of course all these facts give the people everywhere the greatest confidence in the medicine, and their confidence is well placed. Dr. Greene's Nervura blood and nerve remedy does cure. It makes the sick well. It is furthermore purely vegetable and perfectly safe to give to infants, children or the most delicate invalid. These facts make it the most popular remedy of the day, and druggists state that no remedy has ever equalised it, either in its enormous sales equalled it, either in its enormous sales

or the complete satisfaction it gives those who purchase and use it. Another thing of great importance is the fact that all who use it, or who desire to use it, have the privilege of consulting without charge, personally or by letter, its discoverer, Dr. Greene, of 35 West 14th street, the well-known and successful specialist in curing all forms of nervous and chronic diseases.
